CHEFOO SHEILED.

SHANGHAI, February 9th, 9.10 a.m.

The officers of the Japanese cruiser *Tamashima* report having heard a terrific cannonading going on near the native city of Chefoo as the port was passed yesterday, and scores of shells were seen whizzing over the foreign settlement and dropping in the harbour.

This is presumed to have been an outrage perpetrated by the Chinese forces retreating from Wei-hai-wei, who probably imagined the foreign men-of-war in the harbour were Japanese warships and therefore fired on them regardless of the consequences. It may, however, have been due to the Japanese advance guard falling in with a large body of Chinese regulars a short distance beyond the limits of the foreign Settlement and a pitched battle being in full swing at the time the *Tamashima* passed the port.

A large number of marines having been landed from British, American, German, French and Russian warships two days ago for the protection of the Settlement, and being in forcible possession of the place, there is no reason to apprehend any danger to the lives of foreigners, though their property may have suffered.

All the lady residents of Chefoo, with their children, were taken on board British and American men-of-war two days ago, while others have already arrived at Shanghai.

THE JAPS COMING SOUTH.

The situation at Chefoo is decidedly critical at present, and it is reported there that a portion of the Japanese Fleet will shortly proceed south to attack either Foochow or Formosa.

LATE TELEGRAMS.

LONDON, January 7th.

The *Pall Mall Gazette* states that it is rumoured that the Right Hon. Sir W. V. Harcourt, the Chancellor of the Exchequer and the leader of the House of Commons, has resigned. It also gives currency to the report that it is possible that Parliament will be dissolved at an early date.

Recent speeches by Mr. T. M. Healy, M.P. for the North Division of Louth, indicate the existence of a revolt on the part of certain Irish members against the present temporary settlement of the Home Rule question. They also show that Mr. Healy is endeavouring to constitute himself leader of the Irish Nationalists.

The Governments of France and Germany have sent protests to the Washington Government against the presence in their ports of doctors in the employ of the United States for the purpose of examining emigrants with the view of preventing the importation of disease into the States.

The personality in the estate of the late Mr. John Walter, Manager and chief proprietor of the *Times*, has been sworn at £277,000.

Mrs. Annie Herant, who was lately in Australia and is now in India, writes to the London newspapers with respect to the allegation of the *Westminster Gazette*, which recently declared that in relation to the Theosophist Mahatmas she has been duped and is now conducting the fraud in order to avoid a scandal. She states that she must defer replying to the charges until she returns to England from the East.

China has asked for an armistice during the negotiations for peace now in progress, but Japan has refused to grant the request.

News of further horrible atrocities committed by Turkish irregular troops in Armenia has come to hand.

A number of Christian priests, who were taken prisoners by the soldiers, were blinded by red-hot irons and then compelled by other means of torture to dance for the amusement of their brutal captors. The action of Victoria in giving notice of its intention to withdraw from the reduced cable rates guarantee is regarded with grave anxiety in commercial circles, because an increase in the tariff is inevitable if the agreement is broken.

Enquiries made into the question of the probable obligation of the colonies this year show that it is unlikely to be more than £7,000, which was the amount of last year. The action of Victoria, therefore, is unnecessary and unjustifiable.

The increase in the rates will seriously affect all the new ventures connected with the market for Australian produce in London and the floating of mining ventures.

The *Times* counsels Mr. Turner, the Victorian Premier, to exercise extreme caution in pushing his proposed land tax. There is ample evidence, it adds, that the pro-union interest of the colony is already taxed to breaking point. If therefore suggests that a trial should be made of the scheme propounded in the Victorian Legislative Assembly by Mr. R. Harper—borrowing in anticipation of selectors' arrivals. If this is not done, it concludes, a calamity may be precipitated.

The Right Hon. W. E. Gladstone has been specially asked to compete for the prize of £1,000 guineas offered by the *Statist* for the writer who evolves the best scheme for an Imperial Customs Union.

The veteran Liberal statesman has declined to enter such a competition "until there is a better prospect than at present of a practical result, and until there is a possibility of achieving success without admitting the principle of protection."

At the Magistrate's to-day, two coolies "went aloft" for a month, in default of payment of a fine of \$10 each, for unlawfully trespassing within the sacred precincts of the evil-smelling "Forbidden City."

We hear that there is some probability of Sir Charles Warren, recently Commander-in-Chief of H.M. Forces in the Straits, being appointed to a home command, and Woolwich district has been mentioned as the likely appointment.

THE *London and China Express* has been requested to state that the report recently circulated that the business of the Straits (Marine) Insurance Company, Limited, was about to be taken over by another company is entirely without foundation.

THE many friends in the Far East and elsewhere of Mr. William Lees, a native of Greenock and lately chief engineer of the steamer *Palmer*, will be glad to hear that he has been elected to the City Council this morning. The funeral will pass the Monument at 4 p.m. to-morrow.

AN apprentice blacksmith named Lun Cheung, was charged at the Police Court to-day for breaking open a cupboard and stealing money and clothes valued at \$650 from his master's shop in Selegie Street. The defendant, who deposed that he had lost money at gambling, was sentenced to six weeks' hard labour, with the option of a fine. If this sort of thing is not manufacturing criminals, we should like to know what better term can be applied to it.

SINCE the institution of England—Australia cricket matches, England have won twenty-two out of forty-one test games. Australia, thirteen, while six have been left a draw. Two more matches were to be played by the Standard combination at Sydney on the 21st to 23rd February, and two other matches have yet to come off at Melbourne on the 21st to 23rd March, and it is reasonable to expect that one at least will fall to the "new chums." The third match established a record for tall scoring, 1514, being the score when the 4th wicket had fallen.

THE European employees of the Chartered Bank were, says the *Singapore Free Press* of 31st ultimo, yesterday made happy by a bonus of 20 per cent. on their annual salary. This is the third time their successful and hard work has been thus recognized. The Eurasian and Chinese portion of the staff also participated in this privilege, though they would seem to have some justification for asking that they shall share in the prosperity of the Bank. The Hongkong Bank has, so our contemporary understands, given a rise of salary to its subordinate employees.

THE Straits Insurance Co. is referred to in the *Singapore Free Press* of the 31st ultimo, thus:—"To consider with the operations in Shanghai for the working of the Straits Insurance Company, we learn that a circular has been issued on behalf of the Shanghai Committee, asking for shareholders who desire to co-operate with that Committee to communicate with Messrs Drew and Napier. The circular contains the resolutions passed at the Shanghai meeting, which have already been dealt with in the circular issued from the Head Office here and published in our issue of the 28th inst."

A Times Odessa telegram states that "the Russian Volunteer Fleet cruisers will begin running between Odessa and Vladivostok unusually early this year, and instead of four or five being sent, as formerly, with troops, guns, ammunition and other warlike material, it seems from recent orders from the Government that ten cruisers will be required for this purpose. During the autumn six more voyages will be made, and it is believed that at least 10,000 men will be conveyed to that part of Asiatic Russia. There is no doubt that the war now being carried on between China and Japan is the main reason why Russia is strengthening her forces for offensive purposes in that quarter."

In reference to the rumour on the alleged liquidation and sale of the Straits Insurance Company to the Commercial Union, the *Straits Times* editorially remarks:—"Instead of \$25 per share, the balance which the shareholders would ultimately get (by the liquidation) would probably not amount to more than \$10 or \$20 per share. This has been a serious attack at the stability of the concern and it is to be hoped that the Shanghai shareholders, who by their recent action have in a measure supported the move, will now say who sent the misleading telegram and make such reparation as they can to the fellow investors for the injury done to the Company's business. They have evidently been made the tools of speculators, and it is their duty to make as far as possible the mischief sound."

CAREY & CO., LIMITED.

The following is the report for presentation at the fourth annual meeting of shareholders in the afternoon, to be held at the Hongkong Hotel, on the 15th instant, at 3 p.m.:

Gentlemen, your Directors have pleasure in presenting their report and statement of accounts for 1894, and congratulate you on the successful working of your business.

The year under review is the most satisfactory one experienced since business commenced, and the turnover has much exceeded that of any previous year, this in spite of the three dull months of the plague visitation. January, 1895, has opened well, and prospects for this year are good.

The net profits of the year's working amount to \$4,861.83, in dealing with which your Directors have followed last year's policy and after making a liberal allowance for bad and doubtful debts, have written off good-will \$1,000, launch \$400, and fixtures to 10 per cent. This, after providing for Managers' bonus and Directors' fees, leaves a balance of \$3,337.47 at credit, with which your Directors propose to pay a 5 per cent. dividend (amounting to \$1,285) and carry \$484.47 to new account.

Your Directors retire at the meeting, but offer themselves for re-election.

The accounts have been audited by Mr. W. G. Humphreys, last year's auditor.

R. E. HUMPHREYS,
Chairman.

(Applause.) He had had a great deal of experience in racing, and had come in contact with all the different classes which frequented the racetracks, and he could only say that he had been impressed with the high tone and the sense of honour which prevailed in all racing classes, and if confirmation of this view were wanting, he need only point to the increasing popularity of racing. No sport would long be tolerated in England if not conducted on honest and straightforward lines. (Applause.)

REPORT OF THE PROVINCIAL EXECUTIVE COUNCIL.

The following report was then presented by Mr. Allison (the Hon. Sec.).

In presenting their first report to the members of the Sporting League, the Provisional Executive Council wish in the first place to call attention to the objects of the League, as set forth in the supplement to the *Sportman* of the 3rd November. This document runs as follows:—

"The Sporting League has been formed to resist the encroachments of the various bodies who occupy themselves in interfering with the sports and recreations of the people. In this view its main endeavour will be:—

"1. To influence public opinion, without regard to party politics, in the interests of sport, so as to enable the people to amuse themselves in future without molestation.

"2. To promote any alterations of law that may be necessary for the better protection of sports and recreations.

"3. To take up and defend any actions that the Council may consider important as test cases.

"4. To discourage all malpractices in connection with sport, and to raise its tone wherever necessary.

"5. Generally to do whatever may from time to time seem advisable for counteracting the pernicious influence of 'Faddists.'"

Since the publication of the League's programme very rapid progress has been made in the formation of local branches throughout the country and many of these are already in working order. The League has been advanced to its present position on a purely honorary basis, it having been decided from the first that no pecuniary contribution should be obligatory upon members, as it is highly desirable to enrol the poorest classes as well as the rich, and it has been felt throughout that there would be plenty of good sportsmen ready to supply whatever funds are necessary for effective action.

All willing to help the movement are invited to do so, and communicate with the Hon. Secretary of the League at 45A, Pall Mall London.

The Hon. James Lowther, M.P., Mr. W. M. Chinnery, Mr. Denzil Oslow and others addressed the meeting, which enthusiastically carried a number of resolutions drafted with a view to giving full and prompt effect to the League's very sensible programme.

NAVAL JOTTINGS.

Orders have been received at Chatham to proceed at once with the building of the first-class battleship *Illustrated*, which is provided for in the Navy Estimates of the current financial year.

It is rather a curious fact that the number of American born sailors in the United States Navy is very small. Of the 9,000 men now forming the *personal* only 17 per cent. are American born. Next year, when the *personal* is to be increased by 2,000, the per centage will be still smaller.

The Admiralty have definitely decided upon the manning and armament of the two new cruisers, *Powerful* and *Terrible*. Each will carry a crew of eight hundred and ninety-four officers and men, a number considerably in excess of that of any battleship afloat.

During the year 1894 the additions to the fleet numbered 27, ranging from the new torpedo boat destroyer, with its speed of 28 knots, to the *Magnificent*, a battleship of nearly 15,000 tons, which was floated out of dock last week. Five first-class torpedo boats have also been added to the strength of the Navy. The new ships completed during the year, and passed into the Reserve or commissioned, include four battleships, three first-class cruisers, four second-class cruisers, four first-class gunboats, and one torpedo boat destroyer.

A new programme has been approved by the Ordnance Committee of the Admiralty, as the result of an exhaustive series of experiments which have just been concluded on the *Nutts*, target ship at Portsmouth. It is in the nature of a common shell, which will in future be used with all breech-loading guns from the 16-in. 110-ton gun down to the 6-in. 5-ton gun. It will be made of cast steel, and its main point of difference from the class of common shell now in use is that it has a pointed head. It carries the bursting charge of the common shell used for all the larger types of breech-loading and quick-firing guns has received its detonation by means of a fuse fitted into the head of the projectile. This naturally interfered with its penetrative power and it is chiefly for the purpose of removing this disability that pointed heads have been adopted. In the new shell the fuse will be attached to the base of the shell.

If the sufferers from Consumption, Scrofula, and General Debility will try Scott's Emulsion of Pure Cod Liver Oil with Hypophosphites, they will find immediate relief and a permanent benefit. The Medical Profession in the various countries of the world universally declare it a remedy of the greatest value, and as it is very palatable it can be readily taken by the most sensitive stomach, and will never fail to give relief and comfort to the sufferer. Any Chemist can supply it.—Sole Agents for Hongkong and the Empire of China:—Watkins & Co., Hongkong.—*Advt.*
